Dear Friend of Life,

Please look at this list of companies and corporations. Some either supporting Planned Parenthood financially, co-sponsoring events or programs or allowing it access to its members and supporters. And this is just a partial list!

To date, at least 257 corporations have ceased funding Planned Parenthood, which has cost the abortion-committing Goliath more than \$40 million!

Please go to www.fightpp.org to verify that a company or organization that you are ready to boycott is still supporting Planned Parenthood. As perhaps they have joined the other 257 corporations who have seen the light!

You may surprised who is on this PARTIAL list:
