

**If you are an individual or employer  
affected by the HHS Mandate,  
WHAT CAN YOU DO?**

**A. Consider your ethical options.**

Go to the website of The National Catholic Bioethics Center on Health Care and the Life Sciences and download the 4 page paper, “Options for Non-Exempt Employers Under PPACA,” (Obamacare). It outlines possible courses of action.

(To find this document on the site [www.ncbcenter.org](http://www.ncbcenter.org), type *options in response to HHS Mandate* into the search box at the top of the page and then click the “go” button. Scroll down in the list that appears to find the article. You can also find this article on the RTL website by clicking on the issues tab, and then the HHS Mandate/Healthcare tab.)

**B. If you can’t file your own lawsuit against the government, you can support any or all of the following organizations which are currently defending suits on the behalf of others (listed below their names). All are 501(c)3 organizations and donations to them are tax deductible to the full extent of the law. You can donate to them and find out more information about them on their websites.**

**C. Share your thoughts about HR 940, the Health Care Conscience Rights Act, with your U.S. Representative.**

This bill prevents the imposition of regulatory mandates that violate the religious or moral convictions of those who purchase or provide health insurance. It would also prevent any level of government from discriminating against health care providers who decline to participate in abortions.
