

WE URGE PUBLIC OFFICIALS TO RECOGNIZE CRIMINAL ACTS TO UNBORN CHILDREN

Let your elected officials know that you care about enacting laws to recognize and protect unborn children from criminal acts of violence.

Laura Ann Davis of Titusville, FL was murdered on January 23, 2006. Her 18-week old unborn son Tavarious Ja'Quan also died, but because of current Florida law, no legal protection exists for his death . . . a life is a life no matter how small.

Laura Ann and Son

The vast public majority support laws to protect a mother and her unborn child from acts of violence in the womb. A woman has a right to give life and protect her child without the fear of injury or death from acts of violence.

We, the undersigned residents of Florida, draw attention to the bias of current law and its limited recognition of the unborn as a Human Life. We thereby petition for the enactment of legislation to recognize the unborn child as a separate victim regardless of his gestational age; therefore charging the offender with two criminal acts.
